EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Popa on 12/5/2008.

The application has been amended as follows:

In Claim 1, the line "a data processing system:" should be deleted and replaced with the line --the method performed by a communication server arranged for:--

In Claim 3, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

In claim 9, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

In claim 13, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--. Additionally, the phrase "further comprising said data processing system:" should be deleted and replaced with the phrase --wherein the communication server is further arranged for:--.

In claim 14, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

In claim 16, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

In claim 17, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

In claim 18, the word "A" at the beginning of line 1 should be deleted and replaced with the word --The--.

2. The following is an examiner's statement of reasons for allowance: The combination and arrangement of limitations in independent claim 1 is not disclosed, taught, or suggested in the prior art. Specifically, the steps of converting and deriving as argued by Applicant on page 8 of the response filed 7/31/2008. This limitation is found in the claim as "converting syntactic specifications of multiple documents to be passed between the entities into a skeleton semantic web ontology comprising a set of classes." The closest prior art found by the Examiner, Dan, does not compare the union of the templates as a whole. For these reasons, in conjunction with the other limitations of the independent claim, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL E. KEEFER whose telephone number is (571)270-1591. The examiner can normally be reached on Monday through Friday 9am-5pm.
